Clinical Departments

DYPDS has 8 Clinical dental departments which are equipped to diagnose and treat patients with various dental conditions and diseases. All these departments have skilled teaching staff, nursing staff, attendants and clerks as required. All the departments are equipped with instruments and facilities necessary to provide oral health care to all the patients. Names of the departments are as follows:

- Dept. of Oral Medicine, Diagnosis and Radiology
- Dept. of Prosthodontics and Crown and Bridge
- Dept. of Orthodontics and Dentofacial Orthopaedics
- Dept. of Periodontics
- Dept. of Endodontics and Conservative Dentistry
- Dept. of oral and Maxillofacial Surgery
- Dept. of Pedodontics and Preventive Dentistry
- Dept. of Public Health Dentistry

Treatment Planning with the help of Nemoceph software

Department of Periodontology

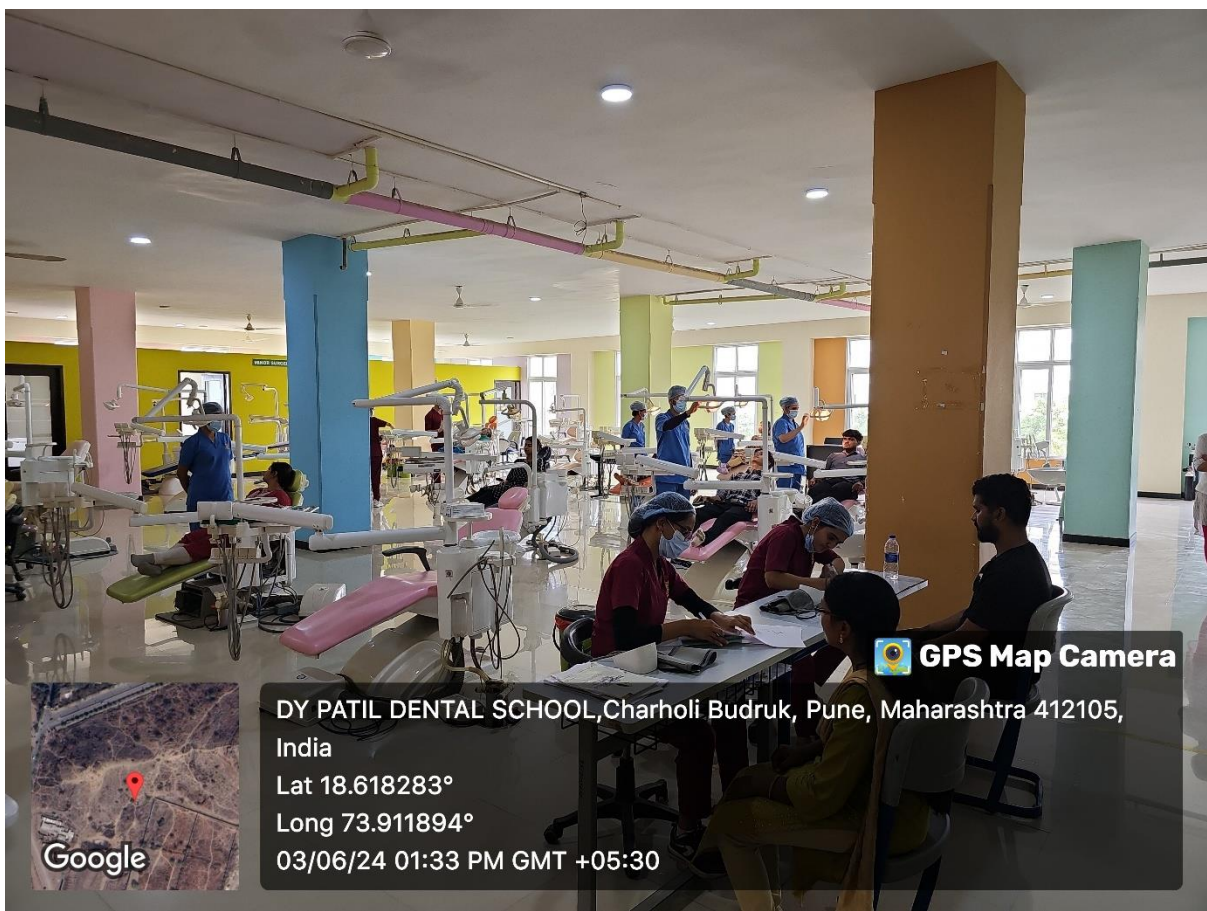

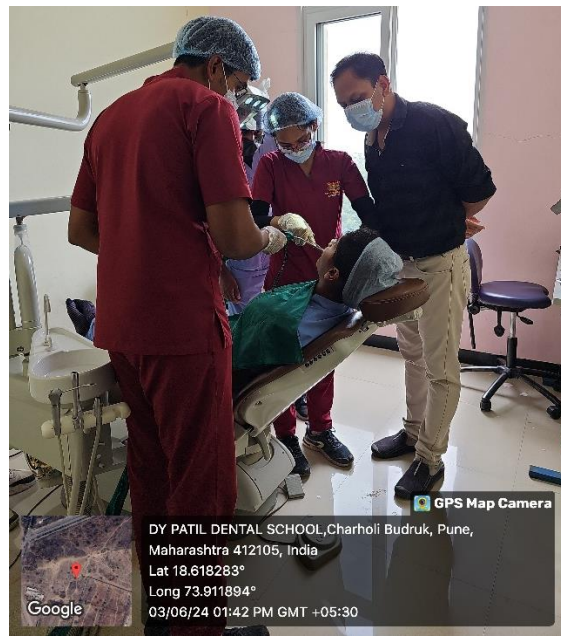

Department of Conservative Dentistry and Endodontics

Department of Oral and maxillofacial Surgery

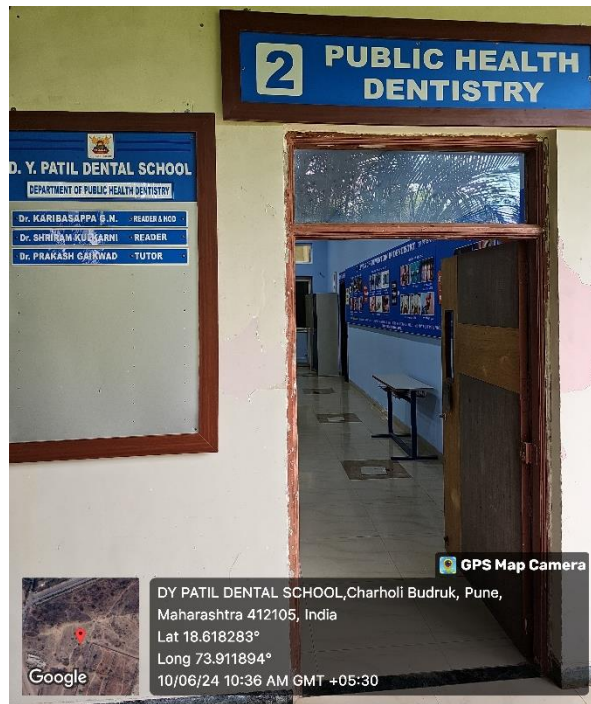

Department of Pedodontics and Preventive Dentistry

Sedation Unit

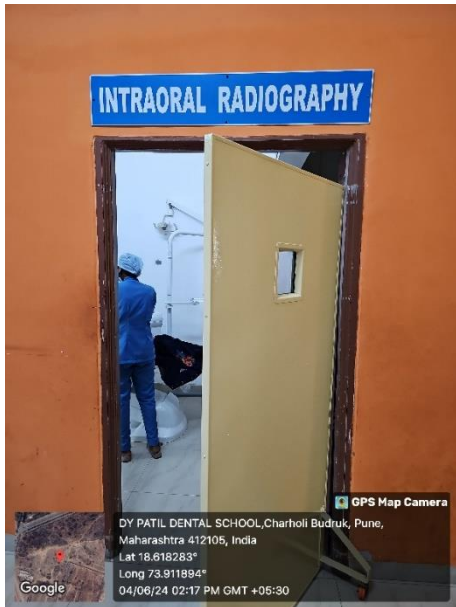

Department of Public Health Dentistry

Intraoral and Extraoral radiography

Precise and accurate diagnostic imaging is the key for preparing effective treatment plan for personalized patient care with optimal outcomes.

DYPDS has a well-equipped radio-diagnostic facility where different intraoral as well as extraoral x rays can be taken to assist the clinical diagnosis.

OPG Machine

Mobile Dental Van

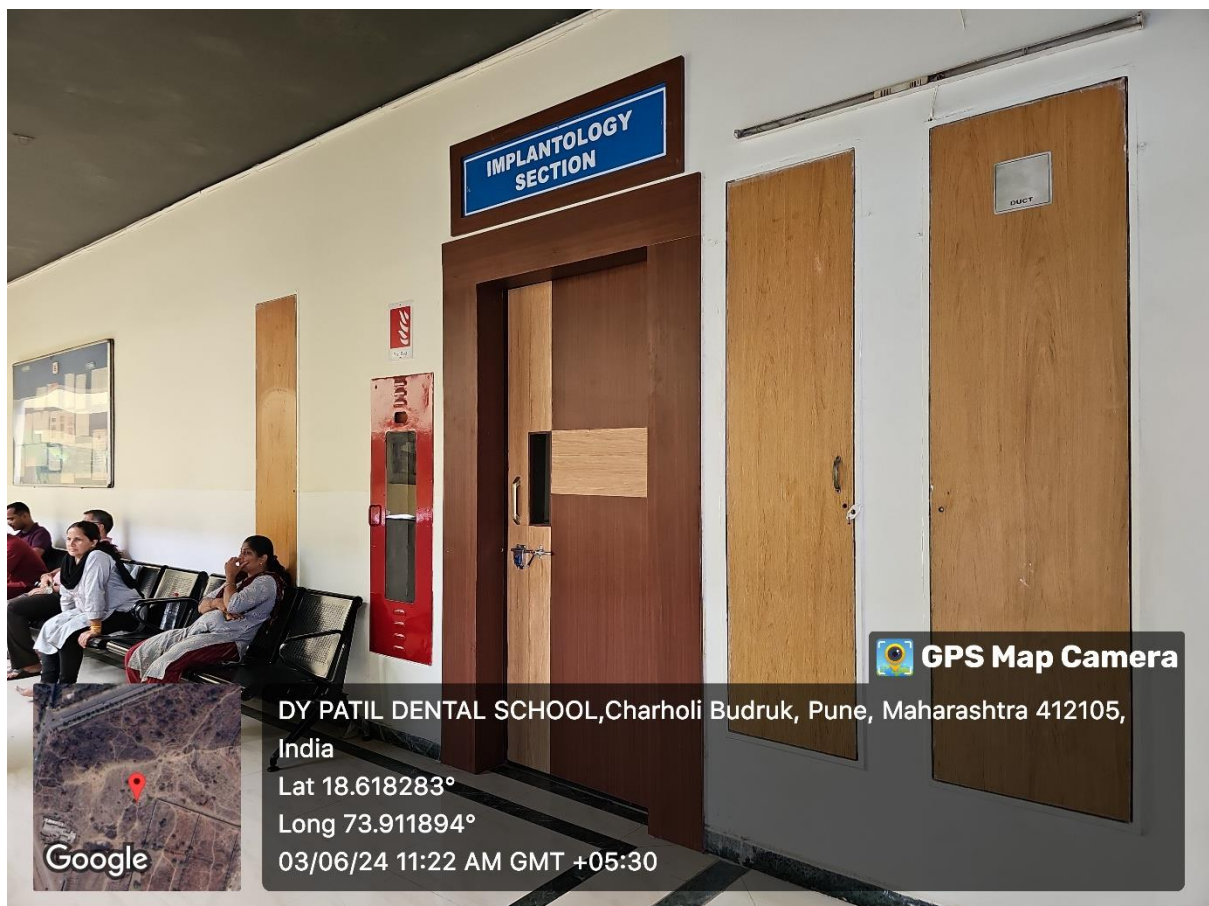

DYPDS has a well-equipped mobile dental van for serving remote areas. This van has a dental chair with compressor for performing basic treatment procedures during dental camps. Van is also equipped with instruments required for various dental procedures.

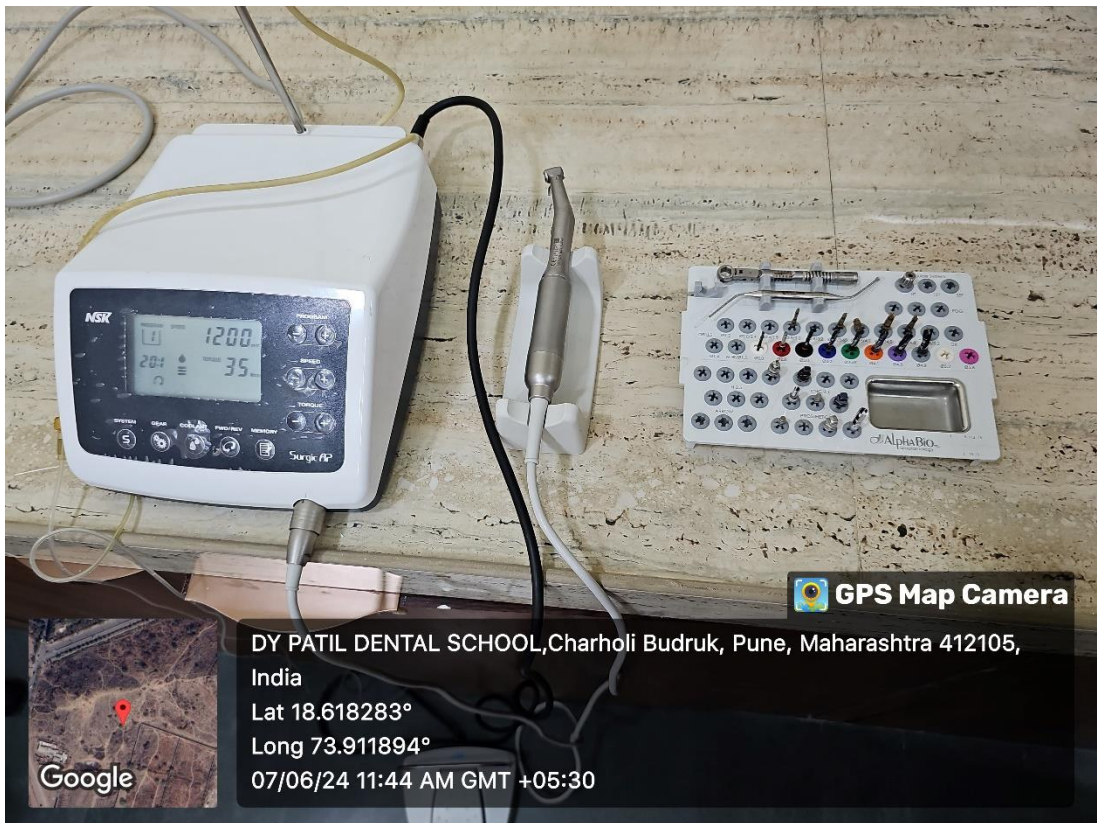

Specialty Clinics

Implant clinic

Implant clinic at DYPDS has been established to provide best quality dental implant treatment as a prosthetic rehabilitation for missing teeth at affordable prices. This clinic has various implant kits like Aden, Refirm, etc along with physiodispenser, RVG, and specialized instruments for advanced procedures like sinus lift, ridge augmentation, bone grafting, etc.

Tobacco Cessation Centre

In accordance with Operational guidelines of 2018 for establishment of Tobacco cessation Centers in a dental institute, DYPDS has established a well-structured TCC to counsel and assist the patients for quitting this adverse habit of tobacco consumption. TCC is situated in the Dept. of OMDR in the basement and has well-trained staff to help the patients.

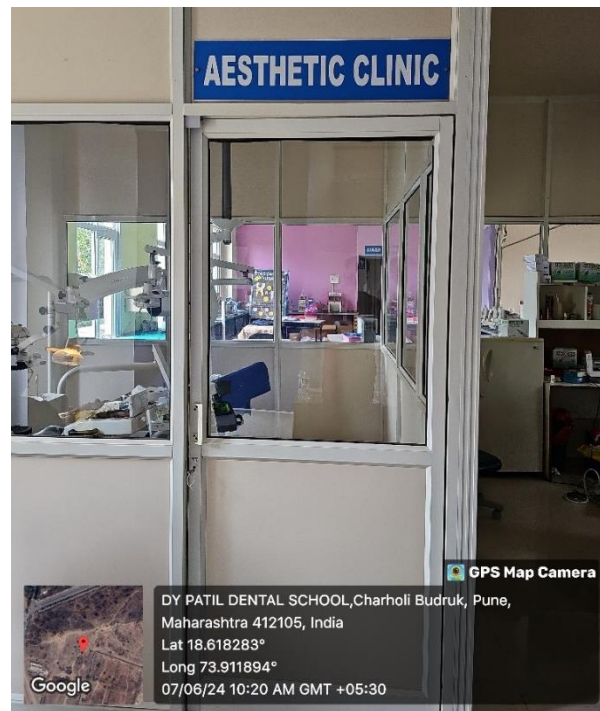

Geriatric clinic

Elderly patients need to be treated with specialized expertise and compassion. Hence, Geriatric clinic in DYPDS was established to separately cater to elderly patients for addressing their age related dental issues and providing customized oral health care to them while taking care of their comfort thereby avoiding longer waiting period and lengthy appointments.

Aesthetic clinic

The Aesthetic clinic at DYPDS specializes in cosmetic dental procedures such as smile designing to enhance the beauty by combining artistic skills with dental expertise.

Integrated Dental Clinic (Comprehensive Dental Clinic)

Integrated dental clinic as a specialty clinic has been established in DYPDS under the Dept. of Public Health Dentistry which is a specialty facility with an emphasis on offering the community a complete range of dental services under one roof. This clinic does not transfer patients from one department to another for specialized work; instead, it emphasizes preventive care and oral health education in addition to providing normal dental exams and treatments in the same clinic. The clinic has expert staff who are committed to providing each person with compassionate, high-quality dental care.

Clinic for special healthcare needs

This clinic in DYPDS is dedicated to patients with specific health requirements who need specialized dental care with comprehensive treatment options. These patients need a safe, comforting, and inclusive facility for their treatment which enables participation of their relatives for better patient care.

Satellite Centre at Primary Health Centre, Charholi

DYPDS has established a satellite center in Charholi which is equipped to address the oral healthcare needs of rural population. Various dental checkup camps are arranged through this center with participation of interns posted in Public Health Dentistry.

Teaching Medical Hospital

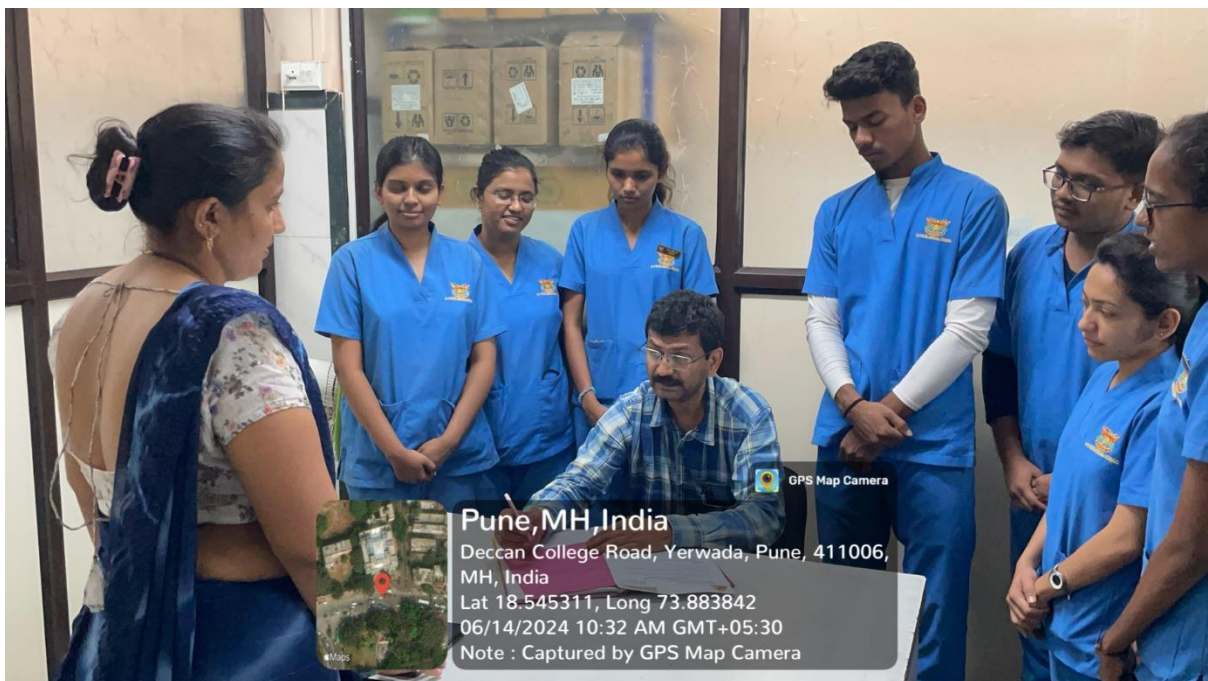

Bharat Ratna Late Rajiv Gandhi Hospital, Yerwada

DYPDS is affiliated to Bharat Ratna Late Rajiv Gandhi Hospital (Corporation Hospital) Yerwada which is situated within 10kms from the dental school. RGHS is a 30 bedded multispecialty hospital run by Pune Municipal Corporation.

3rd B.D.S. students from DYPDS attend General Medicine and General Surgery clinics at this hospital and gain clinical training of examining the patients and learn about the line of treatment.

Dental Department at Bharat Ratna Late Rajiv Gandhi Hospital, Yerwada

The hospital also has a functional dental wing which is run by DYPDS. One qualified staff and 2-3 interns are posted there for providing quality dental care to needy people in affordable rates. The department is equipped with a dental chair and necessary instruments to perform basic dental treatment.
