TO WHOMSOEVER IT MAY CONCERN

As the Dean of D.Y. Patil Dental School, I had the absolute pleasure of mentoring Dr. Divya Mahirchandani in the last 5 years (2017-2022). I was her Professor and Head of Department of Pediatric and Preventive Care Dentistry. She is a high-spirited, determined, persistent, knowledgeable and a creative student. She displayed positive approach towards academics and stood amongst top 10 in her final year. She illustrated her deep interest in clinical skills as well as in research field. Her never quitting attitude and the ability to strive for accomplishment were two of the major valuable attributes that I noticed in her.

Throughout her tenure in our college, she proved to be an all-rounder student. She has passionately participated in college co-curricular activities, conferences, seminars and workshops. She has volunteered and helped in organization and management of these events as well, showing her capability to lead a team. She shows great leadership which made her one of the most active members in our student body. She has done various community services, one of which was working as a medical volunteer at 'Special Olympics Bharat 2022' by Government of India. She was a part of the first ever student exchange program conducted between our college and KIMS-DU (Krishna Institute of Medical Sciences) in 2022 in all aspects whether it was organizing & managing or participating in it to represent our college. This shows her boundless potential in all the aspects and I'm sure she will depict the same qualities in her Master's as well.

She is highly ambitious, self-motivated and curious. She shows focus and passion towards her ambitions and will prove to be an excellent addition to your University. Pursuing her Master's at your esteemed university will surely help her get closer to her goals.

Therefore, I offer my sincere recommendation for her as a candidate for the Master's program at your University.

If I can provide any further help or information, please do not hesitate to contact me.

Yours sincerely,

Dr. Anand Shigli

Dean & Head of Department- Pediatric and Preventive Care Dentistry

TO WHOMSOEVER IT MAY CONCERN

As the Dean of D Y Patil Dental School, Pune, I have had the pleasure of knowing Dr. Lakshmi Bandebuche for the last five years. She has been a tremendous student and a very good dental practitioner at our school. I would like to take this opportunity to recommend Dr. Lakshmi for admission to the graduate program in biotechnology at the University of Guelph.

I feel confident that she will continue to succeed in her studies as she did at our institution. Dr. Lakshmi is a dedicated student and thus far her academics have been exemplary. In class, she has proven to be a take-charge person who is able to successfully develop plans and implement them. I have seen many examples of her talent and have long been impressed by her diligence and work ethic. Her empathy with the patients in our clinical departments as well as the dedication with which she treats patients is also appreciable. As I am the head of the pedodontics department, I observed her attitude towards younger patients and I must say, the way she managed and treated those kids is commendable. Also, she managed to arrange a lot of health and dental camps for our college and showed utmost commitment towards her work as a dental intern. I would also like to mention her commitment towards her patients during the covid pandemic, when she was always available for them on the phone.

Other than clinical work, she is able to successfully multitask with favorable results as was evident to me during our cultural fests and events. I found out that she is very hardworking when it comes to work as a volunteer. She has successfully demonstrated leadership ability by being an incharge during the sports events held at our college. Her advice has been a great help to many students, of whom have taken time to share their comments with me regarding her pleasant and encouraging attitude.

It is for these reasons that I offer high recommendation for Dr. Lakshmi without reservation for the graduate program of biotechnology at University of Guelph. Her drive and abilities will truly be an asset to your establishment. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Warm regards,

Dr. Anand Shigli,
Head of Department, Pedodontics
and Dean, D.Y Patil Dental School, Pune

TO WHOMSOEVER IT MAY CONCERN

It is a pleasure to write this letter in support of Dr. Nidhi Deglurkar, recommending her for admission to the master's program at your esteemed university. I am the Dean and the Head of the Department of Pedodontics and Preventive dentistry at D.Y Patil Dental School, Pune. I have known Nidhi since her first year in the Bachelor's of Dental Surgery program.

Based on my observation, I have known Nidhi to be determined towards achieving her goals. She has been consistent with her assignments and clinical work and always ensured to actively participate in classroom discussions. She has the ability to grasp new concepts in a short period which differentiates her from her peers at our institute. As the HoD, I have closely followed the overall growth of her clinical skills in dentistry. Her participation in various hands-on workshops and dental conferences proved her curiosity and determination to be a better dental surgeon and a capable public health educator. She proactively uses the theoretical concepts in the classroom in practical scenarios. She successfully participated as a medical volunteer for Special Olympics Bharat where she was responsible for the oral screening of mentally challenged athletes with a group of other interns which also brought her managerial skills to the forefront. She successfully organised various free dental check-up camps around the campus educating the society about various preventive measures for dental diseases which gave a boost to her self-confidence. And she performed exceptionally well in all her academics and was among the toppers of her batch.

Apart from academics she also participated in college fests and team events which has made her a holistic person. From my experience and observation, Dr.Nidhi is a strong candidate for succeeding in the graduate program at your university and I wish her all the best for his future.

Please feel free to contact me for any additional information

Dear Program Director,

It is my pleasure to write a letter of recommendation for Dr. Piyush Mahajan, a talented clinician who has worked in my department as a dental apprentice for over a year and as a student for two years. I was his professor for Oral Medicine Diagnosis & Radiology. He is an individual with creative and logical thinking who works with an unending dedication and passion to gain thorough knowledge and refine his skills. He is a keen observer, and has the desire to understand concepts to the point that he is able to successfully implement them in practical situations. He was always a step ahead of his peers when it came to using his knowledge to solve problems. I recall that during the COVID-19 lockdown, he was unable to set up follow-up appointments for his patients of the tobacco cessation program. But he was not disheartened, he reached out to them over the phone and through video call and delivered the care they needed.

His duties in the clinics included maintaining patient records, performing dental screening and various operative procedures, and I am pleased to say that he exceeded my expectations through his performance. He is also familiar with the administrative side of dentistry. While working in the OutPatient Department, even during peak hours when the patient flow was maximum, Piyush has exhibited tremendous commitment. His management made sure that no patient has to wait for more than required time and everyone of them gets an accurate diagnosis. He has successfully managed dental auxiliary staff and has led his team in organising various dental camps around our hospital to serve the underprivileged. With an altruistic attitude, serving others has always been his first priority.

Due to his helpful nature and team spirit, he shares his knowledge bank with his peers with alacrity. Piyush is well recognized among his juniors as well. He actively guides them in their studies and clinics whenever they approach him. He is always calm and composed, so his juniors always love to interact with him.

I am confident that a student as brilliant as Piyush will be able to assimilate a great deal of learning under your well-renowned faculty and would have an enriching career ahead. I can guarantee that he will prove to be a valuable asset to your university. Please do not hesitate to contact me for any additional information.

To,
Admissions committee,

As the Dean of D.Y Patil Dental School, Pune, I have known Dr. Piyush Mahajan to be one of the sharpest students, excelling in both academics and extracurricular activities. He first gained admission in our college in the year 2017 and has left a positive impression on me and all the faculty members. I have also had the opportunity to teach him Paediatric and Preventive Dentistry in 3rd and 4th year of his bachelor's. Based on my observation in class and extensive interaction with him, I can confidently say that he is one of the most sincere and earnest students I have come across.

Dr. Mahajan displays self-assurance and has consistently shown great devotion to his studies. His strong fundamentals and diligence reflect strongly in his grades. He has always participated actively in class discussions and possesses the necessary abilities to provide his patients with high-quality care. He keeps himself updated actively through various books, articles and research papers, and is always ready to assist his juniors and peers in academics as well as other matters.

Dr. Mahajan was involved in varied extracurricular activities, both as a member of cultural fests' committee and as a participant of numerous events held during his time in bachelor's. He has worked with me at the IDA Pune Dental Show Conference, SO Bharat screening program, COVID-19 immunisation drive, which are one of many events that have been a success due to his team effort. And being a tech-savvy person, he has been an invaluable asset to the technical organising team of the student council that successfully conducted numerous events, programs and conferences held at our college. And due to his clear character and distinct qualities in my mind, as stated above, I had chosen him for the Student Exchange Program from our university.

I can assure you that Dr. Mahajan will keep working hard to contribute to your university and simultaneously shine as an individual. I would like to express my admiration for him and my sincere belief that he would significantly improve his surroundings via his vivacious energy, diligent work ethic, and desire. Thus, I extend my endorsement for his admission into the masters program at your university. And I wish him best of luck for his future endeavours.

Warm regards.

TO WHOMSOEVER IT MAY CONCERN

I am pleased to write this letter of recommendation for Poorva, who has applied for Information systems-bridge program at your university. As the Dean of D.Y. Patil Dental School, I have had the pleasure of observing her growth both academically and personally during her studies and subsequent one-year internship.

Poorva has always been an exceptional student, consistently ranking in the top 5% of her class throughout her academic journey. Beyond her laudable academic prowess, what sets Poorva apart is her intellectual curiosity, especially at the crossroads of healthcare and technology.

During her internship at D.Y. Patil Dental School, Poorva introduced me to the concept of digitizing our patient records and implementing data analysis tools for better treatment strategies. She proposed a compelling use case of creating a data-driven model for identifying patients at risk of post-root canal infections based on various factors such as age, medical history, and oral hygiene habits. This, she argued, could revolutionize our approach by helping us shift from reactive to proactive dental care, thus enhancing the patient experience significantly.

Poorva's leadership skills are best illustrated through her tenure as an active member of the student council, where she led several key initiatives and events. Her sterling ability to command an audience was seen when she successfully anchored the 'Ankuram', advanced clinical training workshop, receiving widespread praise for her articulate and engaging style.

She's also an active researcher, having participated in a competition organized by the Indian Council of Medical Research where she presented a well-received paper on 'Menopause and Periodontal Diseases'. This is a testament to her ability to delve into complex, specialized subjects and make meaningful contributions.

Her tireless service to the community through her volunteer work with the Robin Hood Army India and Aarogya Bharti's public health projects highlights her strong sense of social responsibility, a quality we immensely value in our institution. I am confident that Poorva will thrive in your Master's program, bringing the same intellectual curiosity, drive, and commitment that she's demonstrated throughout her time with us. I recommend her without reservation and I am sure she will be a valuable addition to NEU.

Please feel free to reach out to me if you need additional information or perspective.

TO WHOMSOEVER IT MAY CONCERN

As the Dean of D.Y. Patil Dental School, I had the absolute pleasure of knowing and mentoring Dr. Prachi Sharma since last 5 years (2017-2022) when she joined our esteemed college to pursue Bachelor of Dental Surgery. I was her Professor and Head of Department of Pediatric and Preventive Care Dentistry as well. She is a hardworking, articulate, disciplined, intelligent and diligent student.

She displayed positive approach towards academics and was among the top-ranking students securing university distinctions in multiple subjects. She demonstrated her deep interest to learning skills in clinicals as well as in research. I had the opportunity to mentor her on her first research in 2019 which is submitted to ICMR (Indian Council of Medical Research) by Government of India awaiting grant for the prototype stage. Her research was comprehensive, well framed and simple to understand. Her intellect was evident as I noticed her keen interest in learning new things and dedication to completing the task at hand no matter what the challenges was, as this was during the pandemic.

Throughout her tenure in our college, she proved to be an all-rounder student. She has enthusiastically participated in college co-curricular activities, conferences, seminars and workshops. She has volunteered and helped in organization and management of these events as well, showing her capability to lead a team and do team work. She shows great leadership and analytical skills which made her one of the most active members in our student body. She did numerous social works including working as a medical volunteer at Special Olympics Bharat 2022 by Government of India. She was a part of the first ever student exchange program conducted between our college and KIMS-DU (Krishna Institute of Medical Sciences) in 2022 in all aspects whether it was organizing & managing or participating in it to represent our college. This shows her boundless potential in all the aspects and I am sure she will depict the same qualities in her master's as well.

What truly makes her unique is her smart hard work, engaging personality and go getter attitude. She is highly ambitious, self-motivated and curious. She has outstanding communication skill and has a clarity of thoughts while expressing her opinions. She often engages in constructive discussions and shows the humility to learn from others also. She shows focus and passion towards her ambitions and will prove to be an excellent addition to your university. Pursuing her master's at your esteemed university will surely help her get closer to her goals. Therefore, I wholeheartedly recommend her for you master's program.

If I can provide any further help or information, please do not hesitate to contact me.

TO WHOMSOEVER IT MAY CONCERN

It gives me immense pleasure to recommend Dr. Prachi Sharma for the Master's program at your prestigious university. I am the Professor and Head of Department of Oral Medicine and Radiology at D.Y. Patil Dental School, Pune. I've known Prachi from past 4 years (2019-2022) as her mentor. Based on my keen observation, she is highly attentive and excellent in her academics.

With her strong commitment to learn along with positive approach and outlook, Prachi gives her best to achieve her goals through impeccable hard work. Throughout the duration of me knowing her, I have noticed her determination to provide best possible treatment to her patients showing her skilled clinical capabilities. She shows great potential and ability to work under the situation of stress. She is quite adaptable and works well in given environment. During her clinicals, Prachi managed to work religiously and finish the given task in no time. She shows the core value in a healthcare worker by displaying the qualities such as a keen eye to proper diagnosis and treatment planning, with good sense of reasoning. She has worked in leadership roles and works well within a team, leading her to be a vital part of many events in college. Her decision-making skill and hard work are commendable. She is diligent and dedicated, making her a good student.

In class, she participates in all the discussions and enthusiastically takes part in all sort of activities like seminars. She has enthusiastically participated in tobacco cessation center and program of our college under NTCP (National Tobacco Control Program by Government of India) including thorough counselling of the patients and organizing awareness events like seminars. She has shown her avid interest in research consistently even during pandemic, whether it was assisting the staff or doing them on her own. This shows her zeal to consistently learn and educate herself which will benefit her in future.

In view of her academic performance, she has always maintained a consistent performance throughout all four years and secured third rank in her final year among 100 students and got four university distinctions among eight theory and clinical subjects including Oral Medicine and Radiology. She displays great deal of understanding in complex situations to solve it in a way which shows her knowledge in practical aspect. She's undoubtedly one of the most promising students I know. I honestly think Dr. Prachi is well-disciplined, industrious and proactive. Thus, I highly recommend her for the Master's program at your renowned university. If you have any questions about this recommendation, kindly do not hesitate to contact me. I will gladly help to my best.

TO WHOMSOEVER IT MAY CONCERN

As the Dean of D.Y Patil Dental School, Pune, I have known Dr. Priyansh Bhimani to be one of the brightest students both in academics and his extracurricular activities. He first gained admission in our college in 2017 and has left a positive impression on me and all the faculty members. I have also had the opportunity to teach him Pedodontics in his third and fourth year of the program. Based on my observation in class and extensive interaction with him, I can confidently say that he stands in the top 2% of students I have taught in the last 5 years and he is one of the most diligent and sincere students I have taught.

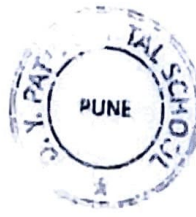

Dr. Bhimani exudes self-confidence and has constantly demonstrated a strong sense of dedication towards his studies. He has always played an active part in classroom discussions and has the skills to take good care of his patients. His belief that ideas sprout from brainstorming has led him to always initiate such debate and thus creating a vibrant learning environment for the entire class. He would help organize dental camps in rural areas around the college, these camps improved the health of hundreds of people, which shows his dedication towards public health.

I would like to say that Dr. Bhimani is a sincere student, who dedicates his total attention to his academics and strives to improve wherever necessary. His positive attitude towards learning and curiosity for the new, puts him ahead of his peers. His social skills and dedication towards his patients is commendable. Besides being excellent at academics, he garners immense interest in sports, especially table tennis.

I can assure you that Dr. Bhimani will continue his efforts in being a valuable part of your university, and simultaneously shine as an individual. I would like to express my admiration for him and truly believe that he will add a lot of value to his environment through his vibrant energy, hard working attitude, and passion. Thus, I extend my endorsement for his admission into the graduate program of public health at University of Alberta. I wish him all the best for his future endeavors.

TO WHOMSOEVER IT MAY CONCERN,

I am pleased to write this letter of recommendation for Dr. Roshni Rankawat, who has applied to your reputed university for a masters program. I have known Roshni in the capacity of being her professor and have been acquainted with her for a few years, during which she has proved to be persistent and clever towards her academics and providing excellent care to her patients.

Roshni has been an industrious and resourceful student who has a great love for acquiring advanced knowledge. She indulged in assignments with an optimistic attitude and embraced constructive criticisms in order to deliver a flawless performance. She possesses knowledge in her domain and despite some shortcomings, she strives to reach excellence by constantly struggling to improve herself. She would not only approach me for performance evaluation but would also acknowledge suggested amendments and rectifications.

I recall that Roshni was a step ahead of her peers when it came to using her knowledge to solve problems. During the COVID 19 pandemic she was unable to counsel and set up follow-up appointments for her tobacco cessation patients, but she was not disheartened, she reached out to them over the phone or through video call and delivered the care they needed. This shows her analytical thinking and dedication towards her patients. Besides the course work, she attended several conferences and participated in workshops.

Roshni was well recognized among her juniors. She actively guided them in their studies and clinics whenever they approached her. She was always calm and composed, so her juniors always loved to interact with her. I was also impressed with her time management skills, she would always be on time for her lectures and never failed to meet any deadlines.

Dr. Roshni Rankawat is one of my best students among a class of 100, and I enthusiastically support her masters application. She truly cares about the health of her community, works well as a team member, and has clearly demonstrated leadership skills. That is why I support her application for masters of public health at your university, and I wish her good luck for a successful career. Please do not hesitate to contact me for any additional information.

As the Dean of D Y Patil Dental School , Pune, I have known Dr. Rankawat Roshni Nandkishor to be one of the brightest students both in academics and her extracurricular activities. She first gained admission in our college in 2017 and has left a positive impression on me and all the faculty members. I have also had the opportunity to teach her Pedodontics in her Third, and fourth year of the program. Based on my observation in class and my interaction with her, I can only call her one of the most diligent and sincere students I have taught.

Dr.Rankawat Roshni Nandkishor exudes self confidence and has constantly demonstrated a strong sense of dedication towards her studies. She has always played an active part in classroom discussions and has the skills to take good care of her patients. Her belief that ideas sprout from brainstorming has led her to always initiate such debate and thus creating a vibrant learning environment for the entire class. She along with her batch mates would help organize dental camps in rural areas around the college, these camps improve the health of hundreds of people, which shows her dedication towards public health.

I would like to say that Dr. Rankawat Roshni Nandkishor is a sincere student, who dedicates her total attention to her academics and strives to improve wherever necessary. Her positive attitude towards learning and curiosity for the new, puts her ahead of her peers. Her social skills and dedication towards her patients is commendable.

I can assure you that Dr. Rankawat Roshni Nandkishor will continue her efforts in being a valuable part of your university, and simultaneously shine as an individual. I would like to express my admiration for her and truly believe that she will add a lot of value to her environment through her vibrant energy, hardworking attitude and passion . Thus, I extend my endorsement for her admission into the graduate program of public health at your university. I wish her All the Best for her future endeavour.

Warm Regards,

Dr. Anand Shigli

TO WHOMEVER IT MAY CONCERN

Respected Sir/ma'am,

It is with immense pleasure that I'm writing this letter of recommendation for Dr Shivani Bhojar, that I had an opportunity to guide her during her bachelors' degree from 2016-2021 at D Y Patil Dental school, Pune. As her dean, I have known Shivani for past 5 years.

Dr Shivani has always been an active participant in all theoretical classes as well as clinical postings. She surely made herself rich in gaining knowledge with every passing year. During her clinical year of an internship, I was her Head of the Department for Paediatric Dentistry and I have seen her dedication and patience towards her work which require to handle a child patient.

Not only Shivani is passionate for her work, she is an excellent badminton as well as cricket player. she has played in Maharashtra University of Health Sciences badminton tournaments and she has bagged several awards during her academic time line. she always kept equilibrium between sports and academics.

She assisted in organising numerous dental awareness camps in Schools and Public Health Centres. she helped in examining, treatment planning and spreading awareness towards dental health. She was well behaved and always vocal about righteous behaviour towards ethical practices.

I have guided many students during my service, but Shivani will be remanence about her critically developed global perspective and her optimism sets her apart. I am confident that her hard work and strong will, coupled with her qualification and her relevant past experience will make her one of the best students. I give my recommendation that she will serve your university at her best. your university will be the stepping stone for her to develop leadership and her skills. if given an opportunity she will be a great asset.

Should you require any other information regarding Dr Shivani Bhojar's qualification, please do not hesitate to contact me.

Sincerely,

Dr. Anand Shigili (BDS, MDS)
Dean and HOD

LETTER OF RECOMMENDATION TO WHOMEVER IT MAY BE CONCERNED

It gives me immense pleasure to write this letter of recommendation for Dr. Simran Janbandhu in support of her registration at the Australian Dental Council. As her Professor, I have known Simran for the past three years.

In the time that I've spent with her, Simran has been a sincere and diligent student with a keen enthusiasm for clinics. Throughout her third and final years, she has put the effort into advancing her knowledge and skills. I have seen her being very attentive and engrossed during her theoretical classes. She has shown great enhancement in her clinical rotations. During the year of internship, she had shown a remarkable ability to diagnose, form a treatment plan and interact with the patients and counsel them for the same.

During her college years, she has participated in various competitions on different platforms. One of which was an essay competition based on the impact of covid-19 on dental education. She also engaged herself in organising many dental camps for geriatric patients by visiting them at old-age shelters, screening each one of them and making them feel comfortable during the process. She does not hesitate to express her suggestions. She very generously accepts her mistakes and works extra hard towards them.

As an academic instructor, I come across students with budding talent from time to time. However, what distinguishes one student from another is their willingness to put in efforts to use their talents in making the world a better place. I am happy to find that Simran is one of those individuals who always go the extra mile. Her capability and competence make her an ideal fit for the registration at the Australian Dental Council and I highly recommend her for it.

TO WHOMSOEVER IT MAY CONCERN

I am writing to enthusiastically recommend Dr. Tanya Roy for admission to the Masters in Public Health program at your esteemed institution. As the Dean of D Y Patil Dental School, I have had the privilege of witnessing Dr. Roy's exceptional academic and personal qualities in the years I have known her.

Dr. Roy's dedication to her field is exemplified by her outstanding performance as a student in our institution. Her academic prowess and strong analytical and problem-solving skills set her apart as a candidate who will undoubtedly excel in your program.

Moreover, I would like to highlight Dr. Roy's commitment to community service, particularly her invaluable volunteer work with Special Olympics Bharat. Her active involvement showcases her passion for public health and her compassionate nature and ability to make a meaningful impact on diverse communities. She has conducted and participated in many dental camps throughout her years in college and has made a real impact on dental awareness.

In addition to her academic and volunteer accomplishments, Dr. Roy possesses excellent communication skills, leadership qualities, and a collaborative spirit. These attributes, combined with her rich background, make her an ideal candidate for your program.

I am confident that Dr. Tanya Roy will contribute significantly to the academic community at your institution and emerge as a dedicated professional in the field of public health. I wholeheartedly endorse her application and believe she will thrive in your challenging and enriching academic environment.

Please feel free to contact me if you require any further information.

Sincerely,

Dr. Anand Shigli

TO WHOMSOEVER IT MAY CONCERN

I am writing to highly recommend Miss. Ummay Kulsum Pakawala for admission to your prestigious institute. As the Professor and faculty of pedodontics and preventive dentistry department, I have had the pleasure to know Ummay for five years and have taught her in her third and final year at the college and also during her one year of internship which she have completed with hard work and dedication to the field of study.

Throughout her college years, she was an active and dedicated student, consistently contributing to class discussions with thoughtful questions and valuable insights. Driven by natural curiosity and determination, she actively sought additional learning opportunities, engaging in independent projects and research, including one supervised by me where she excelled. Her genuine concern for health and the community is evident through initiatives such as organizing health camps in underprivileged areas, offering free dental check-ups, participating in health awareness programs and conferences, and promoting health education by teaching about oral hygiene in various schools. Her efforts reflect a sincere commitment to the betterment of people.

Ummay is a highly motivated and hard working individual who would be a valuable asset to any program. She has all the necessary skills and qualities to succeed in this challenging and rewarding program, and I have no doubt that she will make a valuable contribution to your prestigious university. Hence, I strongly recommend Ummay for admission to the program and wish her good luck in all her endeavours in the future. Please feel free to connect with me in case you have any queries.

Sincerely,

TO WHOMSOEVER IT MAY CONCERN

I am writing to highly recommend Dr. Ummay Kulsum Pakawala as a candidate for further studies in your university. I have had the privilege of serving as her professor and have closely observed Ummay Kulsum's exceptional dedication and aptitude in the field.

She has consistently demonstrated a strong commitment to academic excellence throughout her time in our orthodontics program. Her performance in coursework, clinical rotations, and research projects has consistently been outstanding. She possesses a keen analytical mind and a natural talent for problem-solving, which are essential qualities for success in advanced studies.

Furthermore, Ummay has shown remarkable interpersonal skills in working with both patients and colleagues. She consistently exhibited empathy, patience, and professionalism in patient care, making her a valued member of our orthodontic team. She is adept at explaining complex concepts in a clear and understandable manner, which is a valuable trait for teaching and mentoring.

In addition to Ummay's academic and clinical accomplishments, she is also a highly motivated, reliable, and compassionate individual. She works well in a team environment and communicates effectively with colleagues, faculty, and patients. Her professionalism and skills make her a pleasure to work with.

I have no doubt that Ummay possesses the qualities and determination required for success in further studies in orthodontics. She is not only a promising student but also a person of integrity and strong work ethic.

I wholeheartedly endorse Ummay's application for further studies in your university and believe that she will excel and make significant contributions to the field.

Please do not hesitate to contact me for any additional information.

Sincerely,

TO WHOMSOEVER IT MAY CONCERN

As the Dean of D.Y Patil Dental School, Pune, I have known Dr. Aaditya Raymond Paul to be one of the brightest students both in academics and his extracurricular activities. He first gained admission in our college in 2015 and has left a positive impression on me and all the faculty members. I have also had the opportunity to teach him Pedodontics in his third and fourth year of the program. Based on my observation in class and my interaction with him, I can call him one of the most diligent and sincere students I have taught.

Dr. Paul exudes self-confidence and has constantly demonstrated a strong sense of dedication towards his studies. He has always played an active part in classroom discussions and has the skills to take good care of his patients. His belief that ideas sprout from brainstorming has led him to always initiate such debate and thus creating a vibrant learning environment for the entire class. He along with his batchmates would help organize dental camps in rural areas around the college, these camps improved the health of hundreds of people, which shows his dedication towards public health.

I would like to say that Dr. Paul is a sincere student, who dedicates his total attention to his academics and strives to improve wherever necessary. His positive attitude towards learning and curiosity for the new, puts him ahead of his peers. His social skills and dedication towards his patients is commendable. Besides being excellent at academics, he garners immense interest in sports and as his role as a Musician.

I can assure you that Dr. Paul will continue his efforts in being a valuable part of your university/College, and simultaneously shine as an individual. I would like to express my admiration for him and truly believe that he will add a lot of value to his environment through his vibrant energy, hard working attitude, and passion. Thus, I extend my endorsement for his admission into the Post graduate program of your respective University/College. I wish him all the best for his future endeavors.
