• Vision

“Illuminating future dental health professionals with the brilliance of knowledge and help them emerge as a guiding light of excellence in the realms of dental education, patient care, and research.”

• Mission

Elevate dental health education by fostering a culture of continual learning for both faculty and students, staying abreast of the latest advancements in dental science and technology, and promoting excellence in education and practice through scientific, academic, and clinical research activities.

Promote interdisciplinary collaboration, enhancing both research and patient care, alongside continuous professional development for faculty and staff fostering a culture of improvement and excellence.
