Standard Operating Procedure for

Integrated Dental Clinic

1. Clinic Operations
    a. Clinic Hours: The Integrated Dental Clinic will operate within the working hours of the institution.
2. Infection Control and Safety Protocols
    a. Personal Protective Equipment (PPE): All dental professionals and staff must wear appropriate PPE, including gloves, masks, eye protection, and protective gowns, during patient treatment.
    b. Hand Hygiene: Proper hand hygiene must be practiced before and after each patient encounter, following the clinic's hand-washing protocols.
    c. Sterilization and Disinfection: All dental instruments and equipment must be properly sterilized and disinfected according to the clinic's sterilization protocols.
    d. Sharps Safety: Proper handling and disposal of sharps (needles, scalpels, etc.) must be followed to prevent accidental injuries.
    e. Waste Management: Appropriate waste segregation and disposal procedures must be followed for biomedical and non-biomedical waste.
3. Patient Care and Treatment
    a. Treatment Planning: Comprehensive treatment plans must be developed for each patient, considering their overall oral health, medical history, and treatment goals.
    b. Specialty Services: Patients requiring specialized dental services (e.g., orthodontics, oral surgery, periodontics) will be referred to the appropriate specialists within the clinic or externally, as needed.

Standard Operating Procedure

Implant Clinic

Standard Operating Procedure – DYPDS Implant Clinic

Standard Operating Procedure (SOP) for the DYPDS Implant Clinic

Purpose: This SOP outlines the functions and standard protocols of the DYPDS Implant Clinic to ensure the provision of satisfactory functional and aesthetic dental implants at an affordable cost, maintaining the highest quality and ethical standards.

Scope:

- The Implant Clinic aims to deliver dental implants that meet patients' needs ethically and in accordance with DCI guidelines.
- It contributes to the physical and mental health rehabilitation of patients by replacing missing teeth with implants.

Constitution:

- Chairperson: The Head of Department (HOD) of periodontology, prosthodontics, or oral surgery rotates as the in-charge of the clinic.
- Faculty Members: Professors from respective departments oversee treatment plans and surgical procedures.
- Nursing In-Charge: Oversees nursing services.

Duties:

- Chairperson: Ensures smooth clinic operations, resolves conflicts, and oversees the entire team.
- Faculty Members: Instruct residents, provide treatment plans, oversee surgeries, and report to the chairperson.
- Nursing In-Charge: Manages nursing services.

Procedure:

1. Patient Assessment and Referral:
   - Patients are assessed at DYPDS departments and referred to the Implant Clinic if implant placement is deemed necessary.
2. Implant Clinic Protocol:
   - OPD examination is conducted, and the treatment plan, along with its benefits, drawbacks, and costs, is explained to the patient.
   - Diagnostic examinations, including radiographic scans and impressions, are carried out.
   - Concurrent treatments like scaling, root planning, endodontic, and restorative treatments are initiated if needed.
3. Surgery Day:
   - Valid consent and medical fitness certificates are confirmed.
   - Surgery is performed ethically and following DCI guidelines, with detailed records maintained.
4. Postoperative Care:
   - Patients receive verbal instructions for postoperative care.
   - Prosthesis placement oversight is provided by staff of the prosthodontics department.

This SOP ensures a structured approach to patient care, maintaining ethical standards, and providing valuable learning opportunities for residents while upholding quality and affordability.

GERIATRIC CLINIC

STANDARD OPERATING PROCEDURE (SOP)

Introduction:

The Geriatric Dental Clinic is dedicated to providing exceptional dental care tailored specifically for older adults. Our mission is to enhance the oral health and overall well-being of elderly patients through comprehensive, compassionate, and patient-centered dental services.

Purpose:

As people age, their dental needs become more complex and require specialized care. Common oral health issues among older adults include:

- Tooth Decay and Cavities: Increased risk due to changes in diet, dry mouth, and other factors.
- Gum Disease: Prevalent due to age-related changes in the oral environment and often linked with chronic health conditions.
- Tooth Loss: Resulting from decay, gum disease, or trauma, affecting nutrition and quality of life.
- Oral Cancer: Higher incidence rates in older adults, necessitating regular screening.
- Dry Mouth (Xerostomia): Often caused by medications, leading to discomfort and increased risk of tooth decay.

Understanding these unique challenges, the Geriatric Dental Clinic is equipped to address the specific needs of elderly patients, ensuring they receive the best possible care.

Scope:

The scope of the Geriatric Dental Clinic includes providing specialized oral healthcare services to older adults, addressing age-specific dental issues such as tooth decay, gum disease, tooth loss, dry mouth, and oral cancer, through comprehensive exams, preventive care, restorative treatments, periodontal care, oral surgery, and patient education.

Constitution:

The Head of the department of Prosthodontics is the in charge of Geriatric Clinic. The Geriatric Clinic is affiliated to the Department of Oral Surgery, Prosthodontics, Periodontics, Conservative & Endodontics.

Each department mentioned above has one faculty member affiliated with the geriatric clinic.

Interns posted in the Department of Prosthodontics are allocated to Geriatric Clinic on rotational basis in batches of 4-5 students.

Receiving the Patient:

Patients over the age of 60 are referred to the Geriatric Clinic from the Department of Oral Medicine, Diagnosis & Radiology. Upon arrival, the patient is guided to register at the reception. The patient then undergoes a thorough intraoral examination, and their detailed medical and dental history is reviewed. Emphasis is placed on addressing the chief complaint, and a comprehensive treatment plan along with the prognosis is explained to the patient and, if present, their accompanying person.

Approach to Treatment:

- At the Geriatric Dental Clinic, our approach to treatment focuses on comprehensive, patient-centered care tailored to the unique needs of older adults.
- We begin with a thorough assessment of the patient's medical and dental history, emphasizing their chief complaint.
- Our team develops a personalized treatment plan that includes preventive care, restorative procedures, and periodontal maintenance.
- We prioritize patient education, ensuring they understand their condition and treatment options.
- Interdisciplinary collaboration with other healthcare providers ensures holistic care.
- Throughout the process, we emphasize comfort, respect, and clear communication with both patients and their caregivers.

Learning Objective:

1. Understand Age-Related Dental Issues: Gain in-depth knowledge of common dental problems in older adults, such as tooth decay, gum disease, tooth loss, dry mouth, and oral cancer.
2. Develop Patient-Centered Treatment Plans: Acquire skills in creating personalized treatment plans that address the unique needs and chief complaints of geriatric patients.
3. Improve Communication Skills: Cultivate effective communication techniques to clearly explain diagnoses, treatment options, and prognoses to patients and their caregivers.
4. Emphasize Compassionate Care: Develop a compassionate approach to patient care, ensuring comfort and respect for elderly patients.

Learning Outcome:

- Gain comprehensive knowledge of the unique dental issues faced by older adults, including tooth decay, gum disease, tooth loss, dry mouth, and oral cancer.

- Develop advanced clinical skills in conducting thorough oral examinations, creating detailed treatment plans, and performing specialized procedures tailored to geriatric patients.
- Learn to deliver compassionate and respectful care, focusing on individualized treatment plans and effective communication with elderly patients and their caregivers.
- Enhance skills in explaining treatment prognosis and outcomes clearly and empathetically to patients and their families.

STANDARD OPERATING PROCEDURE

SPECIAL HEALTH CARE NEED CLINIC

INTRODUCTION

Children with special health care needs (SHCN) often have unique dental needs that require specialized attention and care. Running a dental clinic for children with special health care needs requires a tailored approach to ensure their comfort, safety, and well-being. Department of Paediatric and Preventive Dentistry, D Y Patil Dental School, Pune has developed a centre to treat children with special health care needs with various facilities such as restorations, oral prophylaxis, pulpectomies, root canal treatments, crowns, preventive and interceptive orthodontic which are customized for individual child..

PURPOSE

This SOP will highlight on standard working protocol of comprehensive care for the special health care need patients.

SCOPE

The SHCN clinic provide smooth and fast treatment for all SCHN patients by early intervention and prevention, tailored treatment plans, behaviour management techniques, sensory considerations with cultural sensitivity and respect.

The scope of this clinic is to assess the oral health of children with SHCN, to allivate their mental disturbances and social anxieties and implementation of multidisciplinary treatment approach to improve quality of life of such patients.

Through this clinic interns and post graduate residents get first hand experience of observing, diagnosing and managing while these patients get treated on a priority bases from initiation to completion.

CONSTITUTION

The Head of the department of pedodontics is in charge of SHCN clinic. Each patient is allocated to PG students on rotational basis under the supervision of Pedodontic staff.

Each PG student correspond with respective faculty member to discuss the treatment planand execute treatment plan objectives.

The SHCN clinic is affiliated to Orthodontics, Oral surgery and Conservative abd Endodontics departments Located in the Premises of D Y Patil Dental School, Pune.

STANDARD OPERATING PROCEDURES

1. **Patient assessment and Record keeping**

- Conduct comprehensive initial assessments to understand each child's medical history, dental condition, and specific needs.
- Maintain detailed and up-to-date records for each patient, including medical history, allergies, medications, and any special accommodations required.

2. **Staff training and Education:**

- Train all staff members, including dentists, hygienists, and support staff, on effectively communicating and interacting with children with special needs.
- Provide ongoing education and training sessions to keep staff updated on the latest techniques and approaches for treating children with diverse needs.

3. **Facility Accessibility and comfort:**

- Ensure the clinic is fully accessible to children with mobility impairments, including ramps, wide doorways, and accessible restrooms.
- Create a welcoming and child-friendly environment with colorful décor, age-appropriate toys, and sensory-friendly waiting areas.

4. **Appointment Scheduling and Coordination:**

- Implement flexible scheduling options to accommodate the needs of children with special health care needs and their families.
- Coordinate appointments with other healthcare providers as necessary, ensuring seamless integration of care.

5. **Communication with Parents or Guardians:**

- Maintain open and transparent communication with parents or guardians, discussing treatment plans, progress, and any concerns or preferences they may have.

- Provide educational resources and guidance on oral hygiene practices tailored to the child's needs.

6. **Behaviour Management strategies:**
- Develop individualized behaviour management plans based on each child's unique needs and preferences.
- Utilize distraction techniques, positive reinforcement, and desensitization strategies to help children feel more comfortable during dental procedures.

7. **Emergency Preparedness:**
- Equip the clinic with emergency supplies and medications, including those specific to managing medical emergencies in children with special needs.
- Conduct regular emergency drills to ensure staff are prepared to respond effectively to any unexpected situations.

8. **Collaboration with Specialist:**
- Establish partnerships with medical specialists, therapists, and other healthcare professionals who can provide additional support and expertise in caring for children with special health care needs.
- Facilitate referrals to specialists when necessary for comprehensive care.

9. **Continuous Quality Improvement:**
- Regularly review and evaluate clinic processes and protocols to identify areas for improvement.
- Solicit feedback from patients, families, and staff to ensure the clinic is meeting the needs of children with special health care needs effectively.

10. **Compliance with Regulations and Standards:**
- Stay updated on relevant regulations, guidelines, and standards governing the provision of dental care to children with special needs.
- Ensure compliance with applicable laws, such as the Americans with Disabilities Act (ADA), to guarantee equal access to dental services for all patients.

Learning Objectives:

1. To diagnose the SHCN patients' condition and identifying the features of the specific pathological condition.
2. To design and execute the customized treatment plan for each patient.
3. To maintain healthy oral environment in these patients.

Learning Outcomes:

1. To increase skill and knowledge of faculties and students through communication with SHCN patients and other care providers.
2. To increase holistic attitude, empathy, understanding, caring, compassion, respect for SHCN patients and flexibility in treatment planning.

INSTRUMENTS AND MATERIALS:

1. Customized Paediatric Dental chair.
2. Scaler with multiple tips
3. Restorative procedures instrument set
4. Endodontic procedures instruments set
5. Conscious sedation Unit
6. Restorative materials, such as GIC, Composite cements
7. Endodontic Materials including various canal irrigation materials, obturating materials.
8. Bioactive materials such as MTA, Biodentine
9. Metal as well as aesthetic crowns.
10. Emergency medical drug kit.

Standard Operating Procedure

Tobacco Cessation Centre Clinic

D Y PATIL DENTAL SCHOOL

Standard Operating Procedure

Tobacco Cessation Centre Clinic

The tobacco cessation centre is run by Department of Department of Oral Medicine & Radiology. It is situated on the lower ground floor of the institution building.

The centre operates daily between 09:00 a.m. to 04:00 p.m.

All the new cases visiting to Oral Medicine Department are screened for use of smoke & smokeless tobacco, by students, interns, and staff members.

All the patients with oral tissue abuse habits are motivated to quit the habit and those who are willing to quit the habit are enrolled in tobacco cessation programme.

Interns posted in Oral Medicine OPD fill up the tobacco cessation centre registration form given, by DCI.

Type and category of oral premalignant lesion, /condition is recorded, and other investigation procedures are advised if necessary.

All the patients are counselled for tobacco cessation through printed /audio, visual IEC (Informative, Education, and Communication) material in English / Marathi language.

The patients who are in need for medical treatment are referred to Rajiv Gandhi Hospital, Yerwada.

National Quit line number for tobacco cessation is displayed at Oral Medicine Department and at Tobacco cessation centre.

All the patients are called for follow up after 10-15 days of first Visit.

All the details are stored in hard copy.
